Appendix E – USPS Corporate VPP Process	17

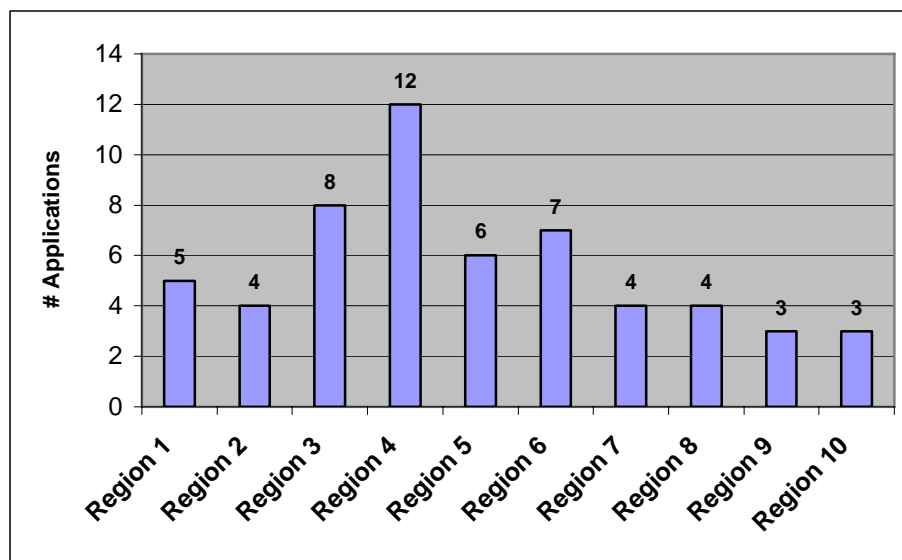

This report summarizes the US Postal Service (USPS) activities in the Occupational Safety and Health Administration's (OSHA) Voluntary Protection Programs (VPP). The USPS contact person for the Corporate Pilot is Robert J. Brant, Manager of OSHA Coordination (Robert.j.brant@usps.gov, 202-268-3690).

Quantitative Information

Submitted Applications, 2005

Fifty-six USPS sites submitted applications for Voluntary Protection Programs (VPP) in calendar year 2005. Appendix A of this report contains a list of all sites that submitted an application in 2005. Applications were submitted to each of the OSHA regions. Figure 1 contains the breakdown of USPS applications submitted by OSHA region.

Figure 1. USPS Applications Submitted by OSHA Region, CY05

The current status (as of March 2006) for the fifty-six submitted applications is:

- ◆ 8 sites are approved Star sites.
- ◆ 27 sites were recommended for Star by an OSHA team, final approval pending.
- ◆ 6 sites were recommended for Merit by an OSHA team, final approval pending.
- ◆ 7 sites are scheduled for an OSHA onsite evaluation in 2006.
- ◆ 2 sites have postponed OSHA onsite evaluations due to events at the facility.
- ◆ 6 site applications are under OSHA review.

New VPP Participants, 2005

Thirty-four USPS sites were approved or recommended for participation in VPP within calendar year 2005:

- ◆ 10 sites were approved for participation in VPP (9 Star, 1 Merit)¹.
- ◆ 24 sites were recommended for participation in VPP by an OSHA onsite team (18 Star, 6 Merit).

¹ Two of the sites approved in CY05 were recommended for VPP participation in CY04.

Appendix B of this report provides a complete list of sites approved and recommended for participation in VPP in 2005.

Thirty-two OSHA onsite evaluations were completed at USPS sites in 2005. Figure 2 provides the breakdown of OSHA onsite evaluations by month. Figure 3 provides the breakdown of OSHA onsite evaluations by OSHA region.

Figure 2. OSHA Onsite Evaluations Completed at USPS Sites by Month, CY05

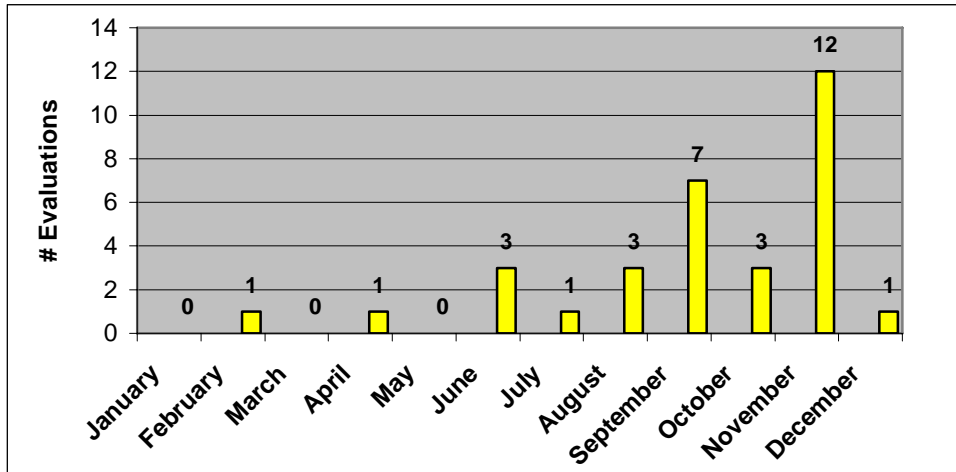

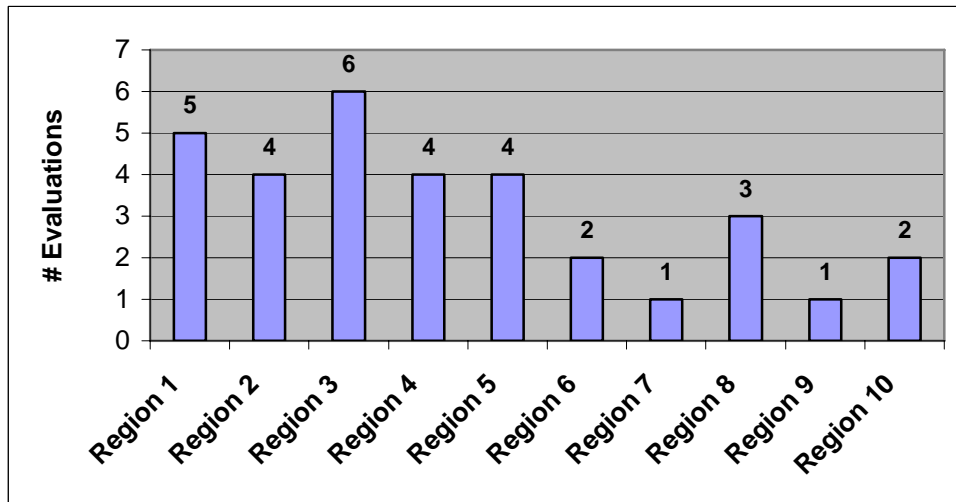

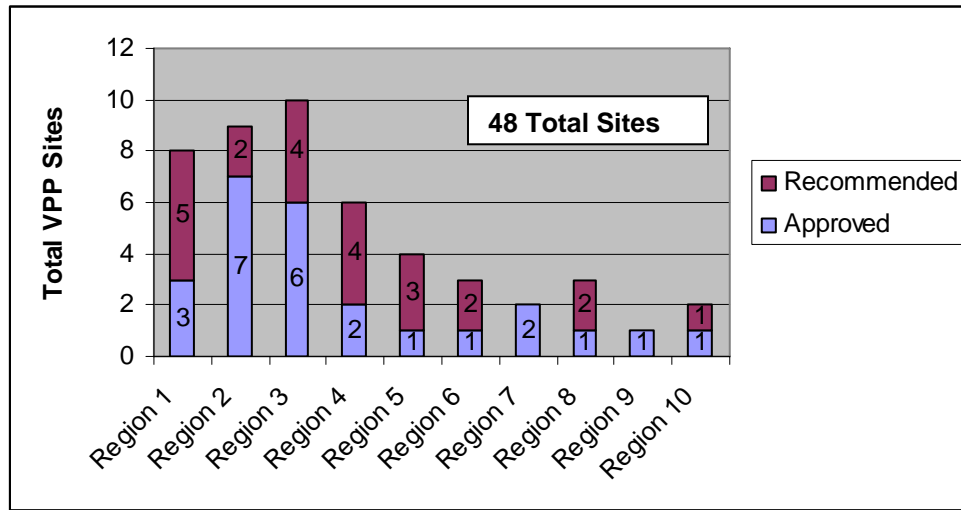

Figure 3. USPS Onsite Evaluations Completed by OSHA Region, CY05

Total VPP Participants, 2005

At the close of calendar year 2005, forty-eight sites were approved or recommended for participation in VPP². Twenty-five USPS sites were approved for participation in VPP, and an additional twenty-three sites were recommended for participation in VPP by an OSHA onsite evaluation team. Figure 4 provides the breakdown of VPP sites by OSHA region.

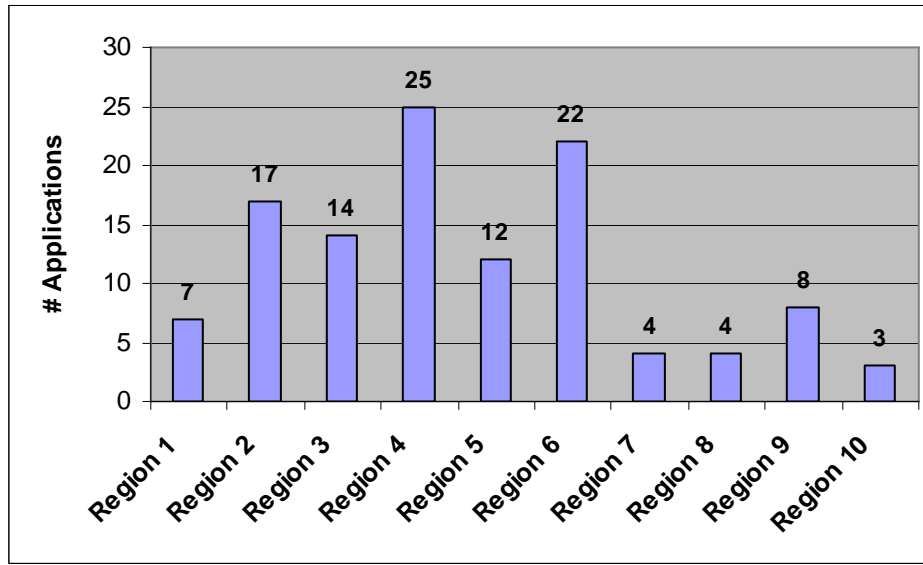

Figure 4. Total VPP Sites by OSHA Region, End of CY05

Projected Applications, 2006

Appendix C of this report contains a list of the USPS sites expected to submit applications for VPP in 2006, along with their projected application dates. Each of the identified candidates is subject to the USPS internal evaluation process, and any revisions to the 2006 candidate list will be provided to the OSHA National Office. Figure 2 contains the breakdown of projected USPS applications by OSHA region.

² One Star site withdrew from VPP at the close of CY05 due to reorganization.

Figure 5. Projected USPS Applications by OSHA Region, CY06

Injury and Illness Rates, 2005

At the end of calendar year 2005, twenty-five USPS sites were approved for participation in VPP. There were an additional twenty-three sites recommended for participation in VPP by an OSHA onsite evaluation team. Table 1 provides the calendar year 2005 injury and illness rates for USPS sites compared to the Bureau of Labor Statistics (BLS) average for North American Industry Classification (NAICS) 4921, Couriers. Appendix D of this report provides the data used to calculate these rates.

Table 1. Injury and Illness Rates for USPS Facilities, 2005

	TCIR	TCIR % Above or Below BLS Rate	DART	DART % Above or Below BLS Rate
Approved USPS VPP Sites	4.7	-64.7	4.0	-57.0
Recommended USPS VPP Sites	4.6	-65.5	3.6	-60.4
All USPS VPP Sites ³	4.7	-65.0	3.8	-58.4
Non-VPP USPS Facilities ⁴	5.9	-56.0	5.0	-45.6

BLS comparative rates are: Total Case Incident Rate (TCIR) =13.3 and Day Away, Restriction, and/or Transfer Case Rate (DART) =9.2.

VPP Coverage, 2005

Table 2 provides the number of USPS sites and employees covered by VPP in 2005.

Table 2. Number of USPS Sites and Employees Covered by VPP, 2005

	# Sites	% of Total Sites	#Employees	% of Total Employees
Approved USPS VPP Sites	25	<1%	8122	1%
Recommended USPS VPP Sites	23	<1%	5166	<1%
All USPS VPP Sites	48	<1%	13288	1.7%
All USPS Facilities	34588		794062	

³ The 2006 fiscal year to date (FY06 YTD) TCIR for all USPS VPP sites is 4.0 which is 44% below the national average and 232% below the comparative industry rate.

⁴ The FY06 YTD TCIR for all USPS facilities is 5.7.

Cost Savings Due to VPP Participation

Cost savings is based on a projection of the number of injuries and illnesses with days away, restrictions, or transfer (DART) for VPP sites using the overall USPS rates. The number of actual DART cases for VPP sites is then subtracted from the projected number of cases to identify the reduction in DART cases due to VPP participation.

The cost of a DART case is based on the National Safety Council estimate of \$38,000 per case. This figure includes estimates of wage losses, medical expenses, administrative expenses, and employer costs, and excludes property damage costs except to motor vehicles.

Table 3. Cost Savings Due to VPP Participation

Projected DART Cases for VPP Sites	579
Actual DART Cases (All VPP Sites)	443
Reduction in DART Cases	136
Cost Savings	\$5,170,993

Qualitative Information

Corporate Safety and Health Policy and Procedure Changes

The internal VPP screening process was amended to require use of the online Safety Toolkit to complete the Corporate Facility Application (C-FAP). Appendix E of this report provides the amended USPS Corporate VPP Process.

Changes in Corporate Management or Structure

There were no significant changes in corporate management or structure.

Special Government Employee and Mentoring Activities

Table 3 provides the activities of USPS Special Government Employees (SGEs) in 2005.

Table 4. USPS SGE Activities

Month	SGE	Activity
February 2005	Charlie Farnum	GE Power Systems- Schenectady, NY
March 2005	Charlie Farnum	Co-instructor at SGE training course, Region 2- Nyskayuna, NY
June 2005	Bob Sander	Blulinx Co- North Kansas City, MO
July 2005	John Rohrer	Torcon Inc- North Wales, Pa
July 2005	Lynn Howard	OSHA Area Office- Columbus, OH
July 2005	Bob Sander	OSHA Area Office- Columbus, OH
August 2005	Lynn Howard	Conoco Phillips reevaluation- Borger, TX
October 2005	Bob Kelly	2 Monsanto facilities- Maui, HI
December 2005	Lynn Howard	Frito Lay reevaluation- Kathleen, GA
December 2005	Greg Seely	Hydroelectric Plant- Polson, MT

USPS employees also participated in mentoring activities throughout the year, including:

- ◆ Charlie Farnum, of the Albany District Safety Office, serves as a Trustee on the Region 2 Voluntary Protection Programs Participants Association (VPPPA) Board of Directors and was awarded the 2005 VPPPA Outreach Award at the National Conference. Charlie is an OSHA Challenge Coordinator mentoring 29 private sector companies. He also gave a presentation to "NY State Insurance Fund" conference on how USPS integrates VPP into company culture in October 2005.
- ◆ Lynn Howard, the Southeast Area VPP Coordinator, began mentoring a Frito Lay Corporation site in Orlando, Florida in 2005.
- ◆ John Rohrer, the Eastern Area VPP Coordinator, along with Peter Brown from OSHA Region 3, delivered a presentation on the Corporate Pilot at the VPPPA Region 3 2005 annual conference.
- ◆ Bob Brant, Manager of OSHA Coordination, and Charlie Farnum participated in a panel discussion on the OSHA Challenge Pilot at the VPPPA National Conference in August 2005.
- ◆ Each of the 9 Area VPP Coordinators, along with union representatives, staffed an exposition booth at the VPPPA National Conference in August 2005.
- ◆ Lynn Howard and Bob Sander, the Great Lakes Area VPP Coordinator, presented VPP at the USPS Human Resources Managers conference in September 2005.
- ◆ Bob Sander was a guest presenter at the St. Louis Safety Conference in November 2005.

Success Stories and Best Practices

- ◆ Unions are more involved in mentoring VPP candidates. Several union representatives completed SGE training so that they can participate in internal onsite evaluations at candidate sites.
- ◆ Each of the 9 USPS operational areas has a full-time Area VPP Coordinator who is tasked with mentoring candidate sites and ensuring that the internal evaluation process is followed.
- ◆ Each of the 80 USPS Performance Clusters is allocated \$10,000 to fund VPP activities of their choosing.
- ◆ Using the Safety Toolkit to complete the C-FAP allows geographically disperse individuals to review site applications for VPP prior to their submission to OSHA.
- ◆ Employees at approved VPP sites are mentoring new USPS VPP candidate sites. Several have submitted applications to complete SGE training in 2006.
- ◆ Site VPP teams attended an 8-hour VPP training course to learn about VPP and the Corporate process.

Benefits of Corporate Participation

- ◆ Established Corporate USPS procedures allow sites to spend more time on the safety program rather than administrative functions. Appendix E depicts the USPS Corporate VPP Process.
- ◆ Participation in the Corporate Pilot has established lines of communication between sites so that they may share best practices. This communication also allows sites to correct issues identified by OSHA evaluation teams at other sites throughout the country.

Feedback on the Corporate Pilot

- ◆ The creation of the OSHA National Liaison (Larry Libertore) and Postal Champion (Dick Soltan) positions has assisted in communication with OSHA and in resolving issues.
- ◆ Regions have begun accepting the streamlined C-FAP.
- ◆ There has been greater consistency among OSHA onsite evaluation teams than at the onset of the Corporate Pilot.
