This is to advise you of the intent of the Sacramento Performance Cluster to utilize the provisions of Article 12.5.C.5 of the National Agreement to involuntarily reassign up to 56 full-time Level 6 clerks from 42 separate offices based on the loss of workload. Specifically, the earned work hours in these offices do not support the current level of staffing.

The final placement date would normally be no sooner than October 22, 2009. However, given the current financial status of the Postal Service and the continuing loss of workload, we are projecting to initiate the placement process in the late August or early September time frame.

Listed below are the offices referenced above and the number of clerks to be excessed from each office.
