

The White House proposes to sell the United States Postal Service to Private Corporations!

Did you know?

- ▶ Postal privatization would lead to higher prices and less service for hundreds of millions of people in the country.
- ▶ The Post Office is established in the U.S. Constitution. The Public Postal Service is part of the fundamental infrastructure of this country – binding it together.
- ▶ The USPS receives no tax dollars for operating expenses and relies on the sale of postage products and services to fund its operations.
- ▶ The USPS delivers universal service to everywhere in the country – 157 million addresses – no matter who we are or where we live. In contrast, private delivery companies go where they can make a profit.

- ▶ The public Postal Service is the most popular and trusted government agency, with 88% of the public ranking it favorably.
- ▶ The public Postal Service is the heart of a \$1.4 trillion mailing industry that provides 7.5 million jobs across the country.

Urge your members of Congress to oppose the sale of your public Post Office.

- ▶ Call your Representative today at 202-224-3121 and urge them to co-sponsor the bi-partisan House Resolution 993, opposing the sale of the post office.
- ▶ Then, call your Senators and urge them to co-sponsor the senate version, Senate Resolution 633.
