

Directives and Forms Catalog

Publication 223

December 2013

1. **Purpose.** This catalog lists all national Postal Service directives and forms, as well as government forms and documents used by the Postal Service. This is a complete revision of the October 2013 edition. Revisions appear regularly in the *Postal Bulletin* under “Directives and Forms Update.” This issue contains all of the revisions published in the *Postal Bulletin* through December 26, 2013.
2. **Directives and Forms Management.** The policies and procedures for originating, developing, revising, and managing policy and procedure documents are contained in:
 - Management Instruction (MI) AS-310-2013-6, *Management of Policy and Procedure Information*.
 - *Administrative Support Manual (ASM) 31*, “Policies and Procedures.”
 - ASM 32, “Forms Management.”

For the clearance of local forms, see ASM 322.13.

3. **Questions and Comments.** Originating organizations are responsible for notifying the Brand and Policy office when documents are out of date or superseded. If you find obsolete directives or forms listed in this catalog, or would like to make suggestions and comments about this catalog, please contact:

1 How To Use This Catalog

What is Listed in This Catalog

Postal Service Directives (Chapter 2)

Directives are documents that contain statements of policy or procedure meant to guide Headquarters, field organizations, or the public. They make available the types of information the Postal Service needs to manage for legal, contractual, and business purposes; and include handbooks, headquarters circulars, kits, labels, management instructions, manuals, notices, the *Postal Bulletin*, posters, publications, signs, and tags.

Chapter [2](#) lists directives numerically by document identifier. There is also a list of directives that are free to the public.

Postal Service Forms (Chapter 3)

Postal Service forms are documents — both printed and electronic — used for collecting, sorting, transmitting, and recording data.

Chapter [3](#) lists all forms numerically by Postal Service Identification Number (PSIN). This catalog does not list forms designed by field units.

International Documents (Chapter 4)

Chapter [4](#) consolidates international postal documents into a list cross-referenced by Postal Service Identification Number (PSIN) and Universal Postal Union number.

Miscellaneous Postal Service and Non-Postal Government Documents (Chapter 5)

USPS Documents

Chapter [5](#) lists some miscellaneous Postal Service documents that are not directives such as the *Comprehensive Statement on Postal Operations*.

Non-Postal Government Documents

Chapter [5](#) also lists non-postal government documents that are widely used in the Postal Service. These documents usually have an identifier that shows their source, for example, IRS (Internal Revenue Service) Form 3435.

Alphabetical Listing of Documents (Chapter 6)

Chapter [6](#) lists all documents alphabetically by title that are listed in Chapters [2–5](#).

Subject Matter Index (Chapter 7)

Chapter [7](#) is the subject matter index of all documents listed in Chapters [2–5](#).

How to Find What You Need

Postal Service Identification Number (PSIN)

If you know the Postal Service Identification Number (PSIN) of the document you need (for example, HBK AS-805 or PS Form 3971), look it up in Chapters [2](#), [3](#), or [4](#).

Title

If you know only the title of the document, look it up in Chapter [6](#), [Alphabetical Listing of Documents](#).

Subject Index

If you are investigating a topic but do not know the specific document you need, look up a key word in Chapter [7](#), [Subject Matter Index](#).

Example: A Postal Service employee who is relocating and is not sure about relocation procedures would look up “relocation” in the index and find the keyword “guidelines,” which is cross-referenced to HBK F-12, *Relocation Policy*. The employee would also find the keyword “real estate expenses,” under **Claims** which is cross-referenced to PS Form 4877, *Reimbursement of Real Estate Expenses – Change of Official Station*.

What the Column Headings Mean

Postal Service Identification Number (PSIN)

The *Postal Service Identification Number (PSIN)* is the document’s identifier. Each PSIN includes a prefix that indicates what type of directive it is, as noted in the following table:

Prefix	Directive Type
HBK	Handbook
HC	Headquarters Circular
KIT	Kit
LAB	Label
MAN	Manual
MI	Management Instruction
MOP	Memorandum of Policy

Prefix	Directive Type
NOT	Notice
POS	Poster
PS	Form
PUB	Publication
SGN	Sign
TAG	Tag

Following the prefix, the PSIN also includes a unique numerical code (e.g., PUB 223) or, for handbooks and management instructions, a unique alpha-numeric code (e.g., HBK AS-353 or MI AS-270-2000-5). The two-letter portion of the alpha-numeric code identifies the Postal Service policy manual or topic/organization to which the document relates, as noted in the table below:

Two-Letter Code	Manual or Topic/Organization
AS	<i>Administrative Support Manual</i>
DM	<i>Domestic Mail Manual</i>
EL	<i>Employee and Labor Relations Manual</i>
FM	Finance
IM	<i>International Mail Manual</i>
IS	<i>Inspection Service Manual</i>
PO	<i>Postal Operations Manual</i>

A document that belongs to another government agency is identified by that agency's prefix, as noted in the following table:

Prefix	Government Agency
ATF	Bureau of Alcohol, Tobacco and Firearms
CA	Department of Labor
DD	Department of Defense
FD	Federal Bureau of Investigation
FE	Office of Personnel Management
GSA	General Services Administration
HCFA	Office of Personnel Management
IRS	Internal Revenue Service
OF/OFI	Optional (U.S.) Government Form
OMB	Office of Management and Budget
SF	Standard (U.S.) Government Form
SSS	Selective Service System
TD/TFS/TUS	Department of the Treasury
TSP	Thrift Savings Plan
W	Internal Revenue Service
WHD	Wage and Hour Division, U.S. Department of Labor

Note: The PSIN or government prefix and number must be used when ordering a document.

Transmittal Letter

The Postal Service revises some handbooks and publications by issuing *transmittal letters* (TLs). The TL number is the latest revision. For some revisable directives, the TLs have been combined. For example, TL 4–7, 10/99, means that transmittal letters 4 through 7 were combined in the 1999 reprinting.

Edition Date/Oldest Usable Date

The *edition date* shows when the document was last issued. If the directive is nonrevisable (issued completely each time), the date of the current issue is shown. Some forms are revised with only minor changes and a previous version may still be usable. The *oldest usable date* column shows the oldest edition of that form that you may use.

Title

The *title* column lists the document's complete title. It may also show the number of pages or type of document (pad, 5-part set, etc.).

Stock Number

The *stock number* (sometimes called the NSN (national stock number) or PSN (postal stock number)) is the number the Postal Service and the federal government use to stock and supply documents. This number must be used when ordering a document. Some documents do not have a stock number; in those instances, N/A is used.

Where Used (for forms only)

The *where used* column identifies the primary users of a form.

USPS Source

The *USPS Source* column lists the Postal Service supply source for the document. Most directives and forms are ordered from the Postal Service Material Distribution Center (MDC) in Topeka, Kansas. A complete list of Postal Service source codes can be found in [How to Order the Document You Need](#), beginning on page [8](#).

Public Source

The *Public Source* column shows whether or not the document is available to the public and where to get it. A complete list of public source codes can be found in [How to Order the Document You Need](#), beginning on page [8](#).

Electronic Documents

Many Postal Service directives and forms are available in electronic media. Where applicable, electronic source codes have been added to this catalog, as explained in [How to Order the Document You Need](#), beginning on page 8.

Adobe Form Client 5.0 Filler

Adobe Form Client 5.0 has replaced F3Fill as the Postal Service corporate standard for automated forms.

Forms created in F3Fill are no longer supported within Microsoft Outlook. F3Fill email attachments will not successfully be transmitted. No new copies of F3Fill will be installed on desktop or laptop computers.

Adobe Form Client provides streamlined functionality for calculations, including a spell check feature, the ability to email forms and/or data from within the software, a tabbing function for visually impaired users, form fill assistance, and data-saving capability.

The Postal Service has a corporate license for Adobe Form Client 5.0 Filler software. The software is distributed as part of the Advanced Computing Environment (ACE). For help with the installation of the software, call:

- Your local IT manager (at Headquarters, call the Help Desk at 202-268-5588), or
- Customer Support, Field Operation Support Services at 800-877-7435.

All automated forms are available from the Intranet (<http://blue.usps.gov/forms>). The forms are sorted by name and number. Form Client forms have a *Form Client* icon displayed in the right-most column of the Web page. To access a Form Client form, click on the *Form Client* icon or press the *Enter* key while on a particular form's icon. Form Client will automatically launch with the selected form.

To request that a form be automated or to request enhancements to an existing automated form, send an email message to Forms Management at formsma@usps.gov.

Internet

The Postal Service has a strong presence on the Internet through the U.S. Postal Service home page (www.usps.com). Many Postal Service directives and forms — including the *Postal Bulletin* — are available to the public, free of charge. The *Postal Bulletin* archives can also be found at www.usps.com. Click on *About USPS & News*; click on *Forms & Publications*; click on *Postal Bulletin*.

Intranet

The Postal Service maintains an intranet for Postal Service employees at blue.usps.gov. Postal Service directives and forms — including the *Postal Bulletin* — can be found on the Postal Service PolicyNet Web site at <http://blue.usps.gov/cpim>.

Postal Explorer

Postal Explorer is an easy-to-use corporate electronic information tool that provides state-of-the-art search capabilities across large amounts of information. It includes Postal Service manuals and publications, domestic and international rate calculators, Postal Service zone charts, and internet links. Postal Explorer is designed to provide fast, convenient access to business process information to better serve customers and promote sales opportunities.

Postal Explorer is available to employees who can access the Internet. It is also on CD-ROM for national account managers, account representatives, and selected Post Offices. Contact your Information Systems manager for more information about Postal Explorer.

How to Order the Document You Need

Postal Service Employees

To order a directive or form, you need to know the supply source (from where you actually order the item). Use the Postal Service source column in Chapters [2](#), [3](#), and [4](#) to determine the supply source code of the directive or form that you wish to order. These codes are explained in the table, [Supply Source Codes](#), which begins on page [9](#). For supply source codes of non-Postal Service documents (for example, GAO (General Accountability Office) documents) consult the GSA Supply Catalog (www.gsa.gov) or your local federal procurement office.

You can order items available from the Material Distribution Center (MDC) by using touch tone order entry (TTOE): Call 800-273-1509.

Note: You must be registered to use TTOE. To register, call 800-332-0317, Option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order.)

Be sure to use the appropriate ordering method for the supply source shown for the document (including your FEDSTRIP and finance number(s)). Do not send it to IPP at Headquarters.

Publication 223 is available on the Postal Service PolicyNet Web site. Go to <http://blue.usps.gov>; under “Essential Links” in the left-hand column, click on *References*; under “References” in the right-hand column, click on *PolicyNet*, click on *text*; click on *PUBs*.

It is also available on the Internet. Go to www.usps.com; click on *About USPS & News*; click on *Forms & Publications*; click on *Postal Periodicals and Publications*; click on *Publications*.

Many forms are also available in automated versions. See [Electronic Documents](#) on page [7](#).

Non-Postal Service Individuals

To order a directive or form you need to know the supply source (from where you actually order the item). There may be a charge for these documents and some are not available to the public.

Use the Public Source column to determine the public supply source code of the directive or form that you wish to order. These codes are explained in the table, [Supply Source Codes](#), which begins on page 9.

Your local Post Office™ should have directives or forms in stock that are free to the public. Call the local postmaster for details. Items that are not stocked at local Post Offices can be ordered by your postmaster from various sources.

2 Postal Service Directives

Definition

Directives are statements of policy or procedure meant to guide Headquarters, field organizations, or the public. They include handbooks, headquarters circulars, kits, labels, management instructions, manuals, notices, the *Postal Bulletin*, posters, publications, signs, and tags.

Distribution

Destinations and Quantities

The Headquarters organization that originates a directive or form decides which offices will receive copies and how many each will get. Most directives are distributed to facilities (Post Offices, bulk mail centers, etc.) in fixed quantities. For example, if one bulk mail center (BMC) receives 10 copies of a directive, usually all BMCs will receive 10 copies. You may order additional copies from the supply source (see [How to Order the Document You Need](#), Chapter [1](#)).

Address Corrections

The National Customer Support Center in Memphis, Tennessee, maintains the file that produces labels used to send directives to Postal Service facilities. To make an address correction, a Postal Service organization should notify:

ALMS COORDINATOR
NATIONAL CUSTOMER SUPPORT CENTER
US POSTAL SERVICE
225 N HUMPHREYS BLVD STE 501
MEMPHIS TN 38188-1001

Telephone: 901-681-4650

For address corrections for a document listed in Chapter [5](#), [Miscellaneous USPS and Non-Postal Government Documents](#), contact the source or follow the instructions in the document.

Handbooks

Handbooks include policies, regulations, and other “how to” information supporting business processes. Handbooks are keyed by the document identifier to the manual that they support. For example, Handbook PO-502, *Container Methods*, is related to the *Postal Operations Manual*, so its identifier begins with “PO.”

Memorandums of Policy

Memorandums of Policy (MOPs) are corporate procedures intended for specific audiences. These directives are available through the USPS Intranet page only.

Note: In this list, MOPs are placed in order by PSIN as follows: first by alphabetical order of organization (such as “COO,” “CR,” “DD,” etc.), *then by year* (even though the year is listed last in the PSIN), and then by month and date.

Postal Bulletin

The *Postal Bulletin* is the official record of changes in Postal Service policies and procedures, and it is the vehicle for time-sensitive instructions and advance notice of changes in other directives. It is published biweekly and is effective for 1 year unless otherwise specified.

Postal Bulletin articles originate from Headquarters departments and are cleared and approved according to Management Instruction (MI) AS-310-2013-6, *Management of Policy and Procedure Information*. Field offices wishing to publish an article in the *Postal Bulletin* should contact their Headquarters vice president or designated representative.

Distribution and Ordering Instructions

Public Subscriptions

Anyone in the public may subscribe to the *Postal Bulletin* or order single copies.

To subscribe, members of the public should complete the *Postal Bulletin* Subscription Order Form and mail a payment (check or money order) to the Postal Service at:

4 International Documents

Listed by Postal Service Identification Number

International mail is mail that originates in the United States for delivery in a foreign country or mail that is addressed for delivery in the United States that originated in a foreign country. Member countries of the Universal Postal Union (UPU) have agreed to use certain documents in the processing and delivery of mail. In conjunction with that agreement, the Postal Service uses both directives and forms to help process and deliver international mail. The following table is a listing of the Postal Service documents that pertain to international mail. These documents are listed by their Postal Service Identification Number (PSIN). The UPU identifier, if applicable, is also included.

Listed by Universal Postal Union Number

International mail is mail that originates in the United States for delivery in a foreign country or mail that is addressed for delivery in the United States that originated in a foreign country. Member countries of the Universal Postal Union (UPU) have agreed to use certain documents in the processing and delivery of mail. In conjunction with that agreement, the Postal Service uses both directives and forms to help process and deliver international mail. As a reference, the following table lists the Postal Service documents that have a UPU identifier.
