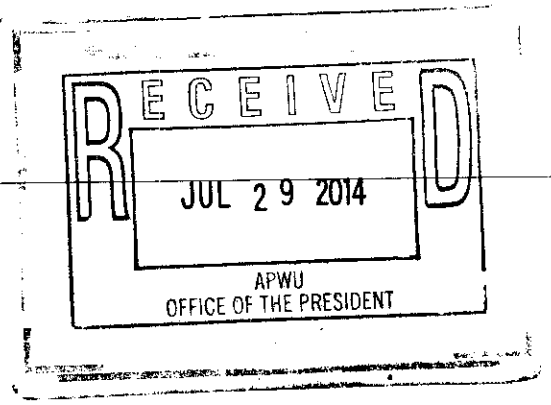
UNITED STATES POSTAL SERVICE



July 25, 2014

Mr. Mark Dimondstein
President
American Postal Workers
Union, AFL-CIO
1300 L Street, NW
Washington, DC 20005-4128

Certified Mail Tracking Number:
7013 3020 0002 3616 6691

Dear Mark:

As information, enclosed is a copy of the first Post Implementation Review (PIR) for the Everett, Washington, Processing and Distribution Facility (P&DF) Area Mail Processing (AMP).

In accordance with the Non-disclosure Agreement February 11, 2013 the Postal Service is providing both redacted and unredacted copies of the PIR.

If there are any questions, please contact Rickey Dean at extension 7412.

Sincerely,

Patrick M. Devine
Manager
Contract Administration (APWU)

Summary Narrative

Last Saved: July 14, 2014

Losing Facility Name and Type: Everett P&DF
Current SCF ZIP Code(s): 982
Type of Distribution Consolidated: Orig & Dest

Gaining Facility Name and Type: Seattle P&DC
Current SCF ZIP Code(s): 980, 981

Background:

The Seattle District, with the assistance from the Western Area, has completed the first 6-month Post Implementation Review (PIR) to measure the success of consolidating the originating and destinating mail processing operations from the Everett WA Processing & Distribution Facility (P&DF) to the Seattle WA Processing and Distribution Center (P&DC.)

The AMP moved the processing of all originating and destinating letters, flats and non-turnaround parcels for the 982 ZIP Code area from the Everett WA P&DF to the Seattle WA P&DC. The AMP of Everett volumes was approved on February 18, 2012, and the transfer of these volumes to Seattle was completed on August 23, 2013.

The Everett WA P&DF is a Postal owned facility located approximately 35 miles from the Seattle WA P&DC. The Everett WA P&DF also houses a Business Mail Acceptance Unit. The transportation hub operation that remains at the Everett facility servicing 67 zones in the 982 ZIP Code area, is now administratively responsible to the Everett WA Postmaster. There have been no changes to the BMEU operations as a result of the AMP at the facility and mailers are able to enter their mail through the Everett WA BMEU as before the AMP was implemented. A local Everett postmark is still available from retail window operations.

Financial Summary:

Financials projected from this first 6-month PIR study for this consolidation of originating and destinating operations are:

Combined Losing and Gaining Facility Data:	Pre AMP	Proposed	1st PIR
Function 1 Workhour Costs	$67,788,866	$64,549,435	$52,838,484
Non-Processing Craft Workhour Costs (less Maintenance & Transportation)	$2,862,028	$2,351,975	$3,947,001
PCES/EAS Workhour Costs	$9,773,239	$8,183,980	$7,639,421
Transportation Costs	$14,323,644	$13,996,194	$17,678,606
Maintenance Costs	$26,801,303	$21,750,259	$21,896,758
Space Savings	$0	$0	$0
Total Annual Cost	$121,549,079	$110,831,842	$104,000,269
Total One-Time Costs	$0	$0	$69,500
Total First Year Costs	$121,549,079	$110,831,842	$104,069,769

	PIR vs. Pre-AMP	PIR vs. Approved AMP
Total Annual Savings	**$ 17,548,810**	**$ 6,831,573**
Total One-Time Costs	**($ 69,500)**	**($ 69,500)**
Total First Year Savings	**$ 17,479,310**	**$ 6,762,073**

The 6-month PIR annualized savings (PIR vs. Pre-AMP) identifies that this AMP is meeting the expected savings of $10,717,237 in the approved AMP; however, the PIR also includes the impacts of other concurrent initiatives as stated below.

- The Seattle P&DC relocated letter, flat and parcel processing for several SCF 980 offices (Mountlake Terrace, Lynnwood, and Edmonds) from the Seattle P&DC to the Seattle East DDC in September, 2013. This transferred workload accounted for $755,457 of the above identified Function 1 savings.
- The Seattle P&DC decentralized all remaining manual SCF 981 Incoming Secondary letter and flat processing to the associated F-4 Customer Services units. This decentralization accounted for $748,467 of the above identified Function 1 savings.

- A Sales Retention team was established at the Everett Hub in February, 2013. The Sales Retention employees are assigned to LDC 89 (craft) and LDC 88 (EAS) accounting for $213,067 of the cost identified in the Non-Processing category.

Adjusting for the above impacts to the PIR results which total $1,716,991, the 6-month PIR projected savings attributed to the AMP is $15,831,819.

Customer Service Considerations:

A National Distribution and Labeling List change was submitted as appropriate for lists L002, L005, & L801 and were published in Postal Bulletin 22365 on June 13, 2013.

There have been no changes to the BMEU operations as a result of the AMP at the facility and mailers are able to enter their mail through the Everett WA BMEU as before the AMP was implemented. There have been 232 changes to local mail collection box pick-up times due to the AMP; however, a local Everett postmark is still available from retail window operations.

The Seattle District and the Western Area are continuing to realign transportation, adjust collections, improve operational efficiencies and made personnel scheduling adjustments to ensure service returns to Pre-AMP levels and ensure cost reductions are realized. Weekly (previously daily) telecoms are held with Senior Staff from both the Seattle District and Western Area to review mail flow issues impacting service performance.

Staffing Impacts:

The staffing proposal in the approved AMP was for Everett to reduce craft staffing by 265 positions and Seattle to increase staffing by 159 for a net decrease of 106 craft positions. The 6-month PIR craft complement shows a net decrease of 304 craft employees with Everett reducing by 283 and Seattle reducing by 21.

The approved AMP also identified EAS staffing reduction of 17 positions in Everett with Seattle increasing by 47 EAS positions due to authorized but vacant positions at the time of study. The 6-month PIR shows a reduction of 17 EAS positions in Everett as projected with Seattle increasing by 26 positions with 12 additional authorized but vacant positions in the new Plant staffing matrix.

Management and Craft Staffing Impacts

	Everett P&DF				Seattle P&DC				Net Diff
	Pre-AMP On-Rolls	AMP Proposed	PIR On-Rolls	Difference to Pre-AMP	Pre-AMP On-Rolls	AMP Proposed	PIR On-Rolls	Difference to Pre-AMP	
Craft [1]	283	18	-	(283)	1,041	1,200	1,020	(21)	(304)
Management	17	-	-	(17)	48	95	74	26	9
Total	300	18	-	(300)	1,089	1,295	1,094	5	(295)

[1] Craft = Career + Non-career

The staffing impacts on management-to-craft ratios are summarized below.

Mail Processing Management to Craft Ratio				
	Pre-AMP		PIR	
Management to Craft Ratios	SDOs to Craft [1] (1:25 target)	MDOs+SDOs to Craft [1] (1:22 target)	SDOs to Craft [1] (1:25 target)	MDOs+SDOs to Craft [1] (1:22 target)
Everett P&DF	1 : 26	1 : 23	N/A	N/A
Seattle P&DC	1 : 25	1 : 21	1 : 23	1 : 19

[1] Craft = Career + Non-career

All affected employees that were reassigned to other Postal facilities were subject to processes outlined in the National Labor Agreements. Pursuant to the Worker Adjustment and Retraining Notification Act (WARN), the USPS is complying with the National Labor Agreements in reassigning employees.

Transportation Considerations:

The approved Everett AMP projected an annual transportation savings of $327,450 with the 6-month PIR identifying a projected annual cost of $3,354,962. Transportation costs exceed the approved AMP projections due to the transportation plan developed was based upon the assumption that Service Standard change would be implemented, and impacts to PVS operations that were the result of the 2012 VERA.

Transportation operating between the Seattle P&DC and Everett hub is exclusively operated by Highway Contract Routes (HCR). The PIR identifies PVS savings of $1,802,135 at Seattle from the Pre-AMP base period; however, these savings are unrelated to the AMP and the result of the 2012 VERA which resulted in eighteen drivers retiring. This required Seattle to supplement PVS operations with a temporary contract HCR 981CA and this cost has been identified on the HCR Gaining tab in workbook. Seattle PVS is in the process of hiring more drivers to backfill this attrition and the costs are expected to return to pre-AMP levels as this work is returned back to PVS. Everett PVS costs of $60,093 can be attributed to a transportation clerk position in Everett that was previously accounted for in LDC 18 that is still required and costs now accounted for in LDC 31 with AMP implementation.

HCR transportation costs identified in the PIR were necessary to ensure operating plan performance for timely processing of all Everett originating and destinating, non-turnaround volumes and include:

- 982L6 was terminated for default due to DOT issues. Route is now operated by Emergency HCR 982AU whose cost has been in PIR workbook;
- 98017 was not eliminated as planned but additional service added to support collection mail flow to Seattle and processed letter and flat volumes back to the Everett Hub to maintain OND service standards. Also added Associate Offices stops that were previously processed in Everett pre-AMP;
- 982A3 was eliminated as planned;
- 980CD had minor changes in frequency to support AMP;
- 982L5 adjustments for Associate Offices added to 98017 above;
- 980BK no changes as projected
- 982AU Emergency replacement for 982L6 above
- 982AA was not required as assumed Service Standard change did not occur limiting T-2 processing window assumption in approved AMP;
- 981CA Segments A & B was added as a temporary to supplement Seattle PVS operations due to the attrition from VERA

Equipment Relocation and Maintenance Impacts:

The approved AMP equipment set assumed full implementation of Network Rationalization and Service Standard Changes to support the consolidation of originating and destinating volumes from Everett, Olympia, Seattle East DDC, Seattle South DDC and Tacoma. All AMP One-Time funding for MPE relocation and the Facility & Engineering Organizations was applied to the Tacoma AMP in consultation with HQS Staff. The Everett PIR has included costs expended to date at Seattle to support the AMPs.

An AFCS, AFSM (from Waco TX), CIOSS, and 13 DBCSs have been relocated to Seattle to support the implementation of the Everett AMP volumes. All equipment moves within the district were accomplished by existing labor and transportation, with the 6-month PIR only identifying the non-personnel costs associated with Waco AFSM move and the BDS installation by Northrop-Grumman of $69,600.

The Facilities Organization has expended a total of $1,210,052 in One-Time Costs to date associated with the AMPs consisting of $1,139,552 for facility modifications & MPE site prep, and $70,500 associated with Engineering projects that will soon be undertaken at Seattle.

The approved AMP projected an annual maintenance savings $5,051,044 with the 6-month PIR identifying an annualized savings of $4,904,545. Everett labor has reduced by $4,425,849 and Parts & Supplies reduced by $595,728 from the pre-AMP period; however, not meeting the approved AMP levels due to not being able to successfully place all positions per the National Agreement, deployment of the Sales Retention Call center that occupied space and usage of the utilities not originally considered, and depostalization efforts not accounted for approved AMP. The additional custodial requirements resulting from re-purposing of space for use other than storage have been done as per MS-47 and will result in variance to approved AMP. Seattle labor has reduced by $91,342 and Part & Supplies have increase by $208,374 from the pre-AMP period with net reduction of $700,454 to the approved AMP levels. The non-personnel variance are associated with an increase in parts required for the AAA and rebuilding TMS staging towers that are reaching end of service life.

Space Impacts

The Everett P&DF continues to operate as planned with hub operations for the 982 service area. In addition to dock operations, the hub processes turn-around originating and destinating NMO parcels and originating machinable parcels (all mail classes) to the 5-digit level for the 982 service area.

To mitigate the cost of maintaining the Everett Hub facility, Customer Service operations for Everett Paine Field and Everett Main Office are being consolidated into the Everett Hub facility. Customer Service offices would remain open only for retail operations (where applicable).

A Sales Retention Team was also domiciled at the Everett Hub facility to mitigate costs and to utilize vacant space.
